Schoox: A leader in learning

G2's seasonal Grid Report gives insight into top software providers across a variety of solutions and how they compare against each other. The reports are based on customer feedback gathered through product reviews, making them a trusted source of information.

They focus on areas such as satisfaction, feature comparisons, and more, ultimately influencing whether vendors fall within the Leader, High Performer, Contender, or Niche quadrants on the Grid.

At Schoox, we're proud to be a Leader in the Corporate Learning Management Systems category. Between our high satisfaction and feature ratings, it's clear to see that our innovative and people-first approach to learning resonates with our customers and their continued success.

In the following pages, see how Schoox stacks up against the competition.

USER SATISFACTION

Being a great partner

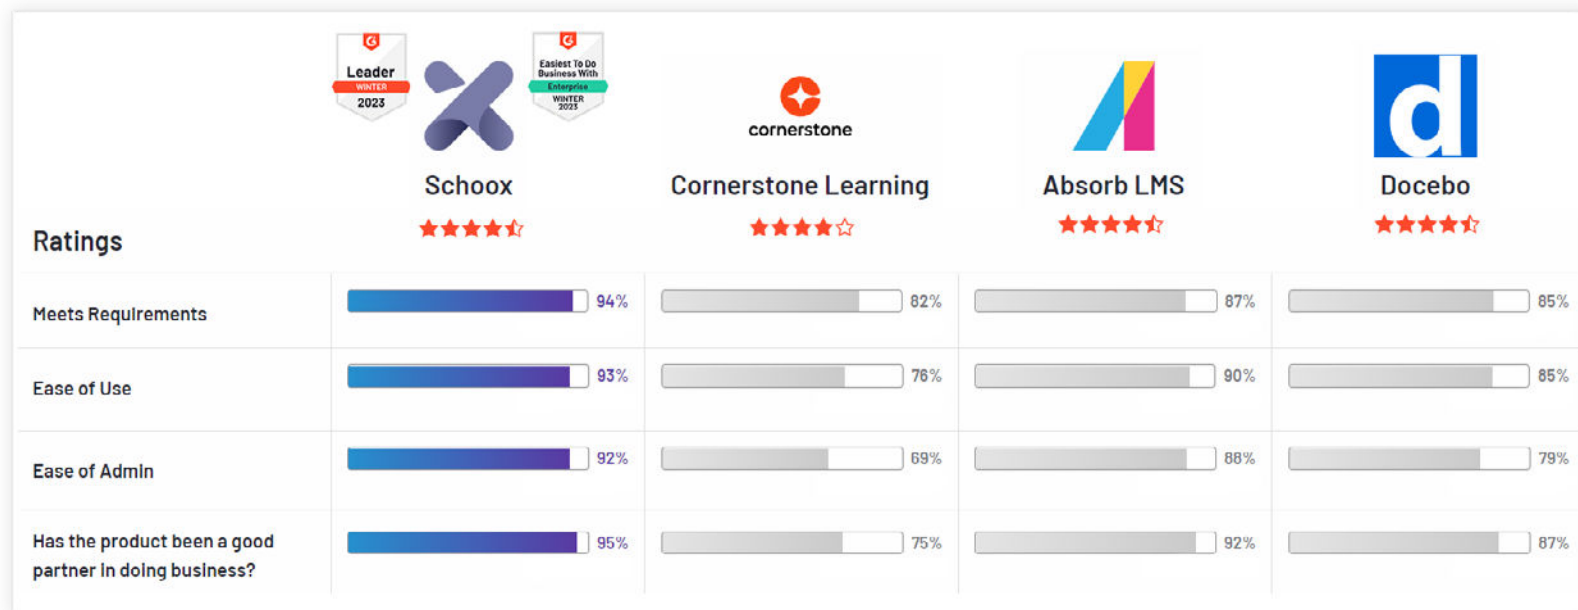

Satisfaction ratings give insight into a software provider's ability to satisfy end users' needs, including ease of use and setup, as well as being able to meet requirements and do business with them.

USER SATISFACTION

Schoox leads in our ability to meet our customers' requirements and needs by striving to be the best partner in learning that we can be.
